MEMORANDUM FOR MR. ANGLETON

SUBJECT:

I had a talk with  yesterday which mainly covered the German situation, the ICFTU, etc., etc. He seemed relaxed, but generally indicated we were selling out to the Soviet by being too kindly to them.

He spoke to me about the lady's trip to   to meet the  and seemed somewhat surprised that I did not know about it.

He also seemed to feel that you were avoiding him and said that the contacts were now so intermittent that he did not know what to do with his material. I said I would discuss this with you upon your and my return.
